

## BB100R™

100 tie-point Solderless Plug-In  
BreadBoard Power Rail

### AVAILABLE SKUs:

WHITE

PART#:  
BB100R

### BB100R Features:

- 100 tie point distribution strip providing two power rails.
- White ABS plastic body with color printed legend.
- Can clip onto and expand the BB630, BB830, BB830M, and other full-length BreadBoards.
- Contacts are Phosphor Bronze with Plated Nickel Finish, rated for 50,000 insertions.
- Rated at 36 Volts, 2 Amps.
- Insertion Wire size is 21 to 26 AWG, 0.016 to 0.028 inches diameter (0.4 to 0.7mm diameter).
- Peelable adhesive tape backing provided for attaching to a surface. Metal back plate provided.

## BB100R Details:

BB100R is a solderless (plug-in) breadboard with 100 connection tie-points (i.e. wire insertion holes) as two 50 tie-point power rails. This can be used on its own or can be clipped to our BB630, BB830, BB830M or our other full-length BreadBoards to expand the available power rails.

Solderless breadboards are great for building and testing new circuits because parts can be easily inserted and removed. They are completely re-usable.

The housing is made of white ABS plastic, with a printed color legend. The internal contacts are phosphor bronze with a plated nickel finish. A peelable adhesive tape backing is provided for attaching it to a surface. BPS BreadBoards are Lead-Free and RoHS Compliant.
